

## **Prefacio**

La investigación lingüística realizada hasta hoy desde el punto de vista dialectal se ha limitado, en su mayor parte, a los campos de la fonética y la morfología. También se han obtenido importantes resultados en la investigación léxica como es el caso del proyecto VARILEX (Variación Léxica del Español en el Mundo), cuyo interés deriva de la dimensión geográfica. Apenas hay antecedentes, sin embargo, de estudios sintácticos, como el que nos hemos planteado en este proyecto, con miras a conseguir una visión dialectal.

Muchos de los problemas de la investigación lingüística hispánica no se podrán tratar sin tener en consideración la variación geográfica del español. A un análisis unidimensional se le escaparía la sustancia de muchos fenómenos lingüísticos. La finalidad de nuestra encuesta, cuyos resultados se publican en este volumen, es la de confirmar cómo algunos parámetros geográficos elaborados para la investigación de campo son capaces de facilitar la explicación gramatical y presentar un modelo metodológico que los incluya.

Esta encuesta sobre cuestiones gramaticales de la lengua española se inscribe en el proyecto “Banco de datos sobre Temas Gramaticales del Español”, subvencionado por la Sociedad Japonesa para la Promoción de la Ciencia (del Ministerio de Educación, Cultura, Deportes, Ciencia y Tecnología), que tiene por objetivo clasificar por temas y términos claves los datos gramaticales acumulados en estos dos decenios en nuestro país a fin de que el banco de datos así configurado sirva tanto de buscador de futuros temas de investigación como de fuente de consulta para los estudiantes del idioma. Desearíamos, por consiguiente, que los resultados de la presente encuesta constituyeran en definitiva una parte de dicho caudal de conocimientos lingüísticos a partir del cual se emprendan nuevos estudios más especializados y profundizados del español.

Creo mi deber informar que las elecciones por mi realizadas también dependen de la influencia de tres idiomas, el catalán por parte de mi madre, el castellano de la zona palentina por parte de mi padre, y el Asturiano por la región donde nací y me crié

Ha de tenerse en cuenta que he vivido varios años en un pueblo; y con mi familia y amigos generalmente hablo en asturiano, lo que hace que las estructuras que habitualmente utilizo, no sean exactamente las de los ejemplos
